MEMBER TRUSTEE ELECTION

The member trustee election was unnecessarily delayed by a member who submitted an unfounded and unsubstantiated complaint to Google, who automatically suspended the voting link in terms of their standard operating procedure.

A new voting link has been developed by the Fund and sent via WhatsApp to all members whose cell phone number is held by the Fund. Members may therefore vote for the election candidates they would like to represent them as member Trustees of the Fund:

- By following the link on the WhatsApp message;
- By following the link on the Home Page of the Fund's website;
- By following the link https://ejoburg-elections.sctechnology.co.za;
- By submitting a ballot paper via email to ejoburgretirementfund@gmail.com; or
- By placing a ballot paper in the ballot boxes at the Fund's walk-in centre or at the Head Office of the Fund's Administrator in Sandton.

Please note that the voting rules and process remain unchanged, except that:

- Any votes already received via the old voting link, via email or in the ballot boxes will be considered valid and will count in the election.
- The voting period has been extended to 17h00 on Friday, 28 March 2025.

The voting rules, election candidate information and the ballot paper are available on the Home Page of the Fund's website at www.ejoburgretirementfund.co.za.

SAVINGS POT WITHDRAWALS

Verification of member data

Members are reminded that it is very important that their correct personal information, and especially their cell phone number, is held by their employer, who then provides the information to the Fund each month along with the payment of the monthly member and employer contributions.

If the Fund does not have a member's correct data, it materially delays the payment of a Savings Pot withdrawal. If a member has more than one cell phone number, they should record which number is held by their employer on their employee records and use this number to initiate a Savings Pot withdrawal.

Savings Pot withdrawals after 1 March 2025

Some members who took a Savings Pot withdrawal in September or October 2024 submitted their application with a nil (or otherwise lower than actual) annual taxable remuneration. The tax deducted by SARS from the Savings Pot payment was then less than it should have been. These members have not escaped tax, but rather still owe the tax to SARS who will look to recover it from the member and may impose penalties.

Specifically, where such a member requests another Savings Pot payment in the new tax year commencing 1 March 2025, SARS is likely to require the Fund to deduct the tax due on the payment plus any arrear tax due by the member. This means that the cash paid to the member is likely to be much lower than expected or even nil.

Members who wish to request a Savings Pot withdrawal are encouraged to do so via the WhatsApp option by messaging 071 909 6789 or via the option on the member portal of the Fund's website. The WhatsApp and member portal options are more efficient and attract a lower administration fee than a paper based application.

LATE PAYMENT OF CONTRIBUTIONS

It was reported in the January 2025 Fund Newsletter that the payroll department of the City of Johannesburg only paid the December 2024 member and employer contributions to the Fund on 9 January 2025. In terms of the Pension Funds Act, these contributions were required to be paid by 7 January 2025 at the latest.

The Fund imposed a late payment interest penalty on the City. This late payment interest, which has now been received by the Fund, was paid after the expiry of the two month period required by the Pension Funds Act.

The late payment interest will be allocated to the Fund Credits (retirement savings) of affected members.

This Newsletter is issued for the general information of the members of the eJoburg Retirement Fund.
